Agenda - 2: Weekly Meeting Date

Division of Labor for This Week:

Assignment 1	Brainstorm	Draft	Elaboration	Revision	Final
A. Logical Architecture	Yıldız	Yıldız Ugur	Faruk Ugur	Team	Yıldız
B. UML Squence Diagrams	Faruk	Faruk Tolga	Yıldız Ugur	Team	Faruk
C. Communication Diagrams	Doruk	Doruk Tolga	Tolga Faruk	Team	Doruk
D. UML class Diagrams	Ugur	Ugur Faruk	Yıldız Doruk	Team	Ugur
E. Discussion of the Application	Tolga	Tolga Yıldız	Ugur	Team	Tolga

Plan for Next Week:

We are planning to work on Logical Architecture, UML Sequence Diagrams, Communication Diagrams, and UML Class Diagrams next week. We will have a draft of Logical Architecture. We will finish UML Sequence Diagrams.

Assessment of Success:

We were planning to complete Logical Architecture, Communication Diagrams, UML Class Diagrams, and Discussion of the Application. We accomplished what we were planning to do for the previous week. Few topics missing/needed clarification that are Interaction Diagrams and Code Demo. There are parts left to update such as Sequence Diagrams and Communication Diagrams.

Open Issues & Questions:
> ➤ Question 1: Are we following the expected format for the diagrams?
> ➤ Question 2: Are there any overlaps or conflicts between class and sequence diagrams?
> ➤ Question 3: How should the code demo be structured in this phase?
